

MEXICAN AFFAIRS AIRED IN SENATE

CONTINUED FROM PAGE ONE.

that, having ordered all the necessary investigation in this case, as I had the honor to inform you in my note of the 24th of February, the result of the investigation made by the local authorities at Chihuahua shows that Mr. Bauch was arrested in Chihuahua, charged with being an enemy of the constitution, and that later was released, the authorities in Chihuahua having at present no knowledge of his whereabouts.

"However, I am very pleased to inform you that the first chief wishes to have a very complete and detailed investigation made of the matter for the satisfaction of the Department of State and for his own satisfaction, and so that your government may see his good will to take into consideration any representations made to him in the proper manner; and, therefore, he has ordered the case of Gustav Bauch to be taken up by the special commission appointed to investigate the Benton case. Said commission will undertake to ascertain as soon as practical the true facts concerning this affair, so that it will be possible to act in strict accordance with the law. At the same time I have the honor to inform you that the authorities at Chihuahua have received orders already to do everything in their power to locate the said Bauch."

The lofty tone of this note is regarded as further indication that Carranza intends, as far as possible, to preserve the attitude he assumed, when last week he informed Secretary Bryan that he, Carranza, was the first chief of the revolution, would not recognize the right of the United States to act on behalf of Great Britain and other foreign nations having interests in Northern Mexico.

FOREIGN POWER PREPARING TO WITHDRAW MEXICO'S NAME FROM THE HAGUE CONFERENCE

London, March 6.—On account of the barbarities reported from Mexico, it was rumored here today that a power which is interested in Mexico, is preparing to request that the name of Mexico be removed from the Hague peace conference. The removal of Mexico as a signatory would place that nation among the uncivilized group.

PAYMASTER IS ROBBED OF \$12,000 IN CASH

Auto Bandits Make Bold Hold-up in Front of Factory's Offices, Escaping with Loot.

St. Louis, Mo., March 6.—The paymaster of the Brown Shoe Company was held up by auto bandits in front of the shoe company's offices at 1200 o'clock this afternoon and robbed of \$12,000 in cash. The thieves escaped in a waiting automobile. The money was the week's pay for the factory employees.

Lucas and R. D. Corlette, another employee of the company, had just arrived at the factory from the store at Seventeenth and Washington avenues with the money. As they stepped from the cab one of the men pointed a revolver at them and demanded the money. Lucas turned it over without parley.

While covering Lucas and Corlette with their revolvers, the bandits jumped into the automobile and ordered the driver to take them away, pointing their revolvers at him to enforce their demands. After fleeing in the automobile to the McKinley bridge, at the foot of Salisbury street, the highwaymen attempted to hold up the watchman at the bridge. When he resisted they left the automobile, fled to Broadway, and boarded a northbound Broadway street car.

He returned from Switzerland about a fortnight ago, but his physicians have again sent him away from this climate, this time to Vernets-les-Bains, in the Eastern Pyrenees. He is suffering with a nervous trouble. He was cured of a similar illness three years ago at Vernets-les-Bains.

PHONE CALL PROVES FASTER THAN CUPID

Marriage License Clerk Tells Girl Her Fiance's Stepmother "Got There First."

WEDDING BELLS WON'T RING

Cupid may be some sprinter and all that, but he can't keep pace with a telephone message. This lamentable fact was demonstrated yesterday to the dismay of eighteen-year-old Charles C. Cator, of 113 G street southeast, and his young fiancée, Miss Ruth A. Ridgeway, of 122 W street southeast.

It might have been different if Charles had not announced to his stepmother his intention to wed the girl at once. "I'll see about that; you're too young to get married," replied the stepmother.

At that the boy dashed out of the house and called up his sweetheart. "Mother won't let me; what do you know about that?" he said. Brushing this obstacle aside, Miss Ridgeway, chaperoned by Mrs. Mary C. Cunningham, hurried to Marriage License Clerk Kroll and applied for the license herself. Mrs. Cator had not been idle in the meantime. She telephoned to the courthouse and forbade the issuance of a license on the ground that her stepson was under age.

BRAZIL SENDS WARSHIP TO QUELL REVOLUTION

Government Believes Black Uprising in Ceara and North Soon Will Be Stamped Out.

POLITICAL SITUATION ACUTE

Rio de Janeiro, Brazil, March 6.—A warship bearing reinforcements today was ordered up the coast to Ceara, which city is menaced by the negro uprising in Northern Brazil. Although a state of siege has been proclaimed here and in the cities of Petropolis and Niteroy, the government announced through the foreign office that it does not consider the revolution of a serious character, and that the disorders soon will be quelled. Soldiers are making hundreds of arrests of negroes and anti-government whites who are all to be involved. The situation has been complicated by a division of sentiment in the Military Club, an organization of army officers. Some favor the retention of the present government in the State of Ceara, others side with the revolutionists. The government has promised to protect all foreign lives and interests.

Lives and properties of Americans in Brazil are not menaced by the political disturbances now occurring in that country, according to advices received at the State Department yesterday from the American Embassy at Rio de Janeiro. The embassy reports that the proclamation of martial law in Rio de Janeiro, Petropolis, and Niteroy was a precautionary measure, resulting from a reflection in the capital and vicinity of the violent disturbances in progress in the state of Ceara and elsewhere in the North. It is understood that some newspaper editors have been arrested, and members of certain clubs, especially those frequented by military men, are said to be under suspicion. The threatened upheaval comes at a most unfortunate moment, according to opinion here. The presidential elections are due to be held in the near future, and already the race is on with a bitterness which in some quarters is regarded as dangerous for the stability of the Brazilian government. Ruy Barbosa is the Liberal candidate, and he and his running-mate have come out with a declaration that under the Brazilian administration they cannot get justice in the counting of the ballots.

She has twenty-five aboard.

The association also petitions the commission that the cars of the Washington-Virginia Railway, Falls Church and Alexandria branches, running in Washington from Twelfth street and Pennsylvania avenue to the Highway Bridge, be required to stop in front of the new Bureau of Engraving and Printing building, and at all intersecting streets in Fourteenth street southwest from B street to Maryland avenue.

TOLLS REPEAL STIRS NOTED GERMAN CRITIC

Count von Reventlow Calls Removal of Clause an Exchange for Benton's Death.

TERMS IT MISGUIDED POLICY

Berlin, March 6.—"It has been years, if indeed, such a case ever occurred before, since the United States so openly backed down before England. It has been years since it so openly felt and said it was no longer absolute in its own sphere, but dependent on other powers."

In these words Count von Reventlow, expert on naval affairs, summarized his view of President Wilson's latest move on the canal tolls question. "That this feeling is in keeping with the facts can scarcely be denied," he continued, "for Wilson and Bryan, through misguided policies, especially as regards Mexico and Japan, have made the situation of the United States anything but agreeable."

"The canal bill interprets the Anglo-American treaty from a certain viewpoint, but it is in no sense an evasion of it. That the United States had a right to construe the treaty as President Taft did can not be doubted. Germany, as compared with Great Britain, regarded the question with comparative calm, but in England the feeling was deep and bitter. Freeing American coastwise shipping from tolls would insure the whole American shipping traffic a great advantage over European, principally over English competitors."

"Sometime ago the United States declined to include the tolls clause among the questions susceptible to arbitration. Today the President of the United States, himself proposes to abrogate it. The conclusion seems well grounded that the attitude of the British government regarding Benton's murder and Wilson's announcement of yesterday stand in the relation of cause and effect. It will be interesting to see how public opinion in England likes the idea of getting the canal tolls paragraph removed in exchange for a murdered Englishman."

WAITRESSES RIOT AGAIN.

Steer, president of the Alexandria County Equal Suffrage League, at Vtich, near Falls Church. Mrs. Henry Lockwood, treasurer of the union, also will speak.

HE PLEADS POVERTY IN REPLY TO WIDOW

John S. Kinney Tells Court He Cannot Pay \$500,000 Heart Balm to Mrs. Ida M. McNabb.

DENIES BREACH OF PROMISE

"I'm a poor man and being poor how can I pay \$500,000 to soothe the heart-pangs of a woman?"

In substance the above statement was the answer filed yesterday in the District Supreme Court by John S. Kinney, seventy-five years old, reputed multimillionaire iron mine owner, who was sued for half a million dollars for alleged breach of promise by Mrs. Ida M. McNabb, a widow with three children, living in Milwaukee. Mrs. McNabb, who is only thirty-eight years old, and said to be attractive, declared in her suit that Kinney "is a man of great wealth, worth millions of dollars and upward."

But Kinney yesterday asked that the statement that he "is a man of great wealth, &c." be stricken from Mrs. McNabb's declaration. Lawyer Freedy, for Kinney, also intimated to the court that Mrs. McNabb likewise is poor. The attorney made a motion that Mrs. McNabb be required to give security for all costs of the litigation, pointing out that Mrs. McNabb is not a resident of the District.

Mr. Kinney also filed a demurrer to Mrs. McNabb's suit, indicating clearly that his promise to fight the case "to a finish" is to be kept.

Mrs. Martin W. Littleton has succeeded in enlisting Senator Reed in her plan to have the government acquire Monticello, Jefferson's old home.

TWO ROADS SCORED FOR JUGGLING ACTS

I. C. C. Criticizes Chicago, Milwaukee and St. Paul and Subsidiary.

OVERSTATED ITS INCOME

The Interstate Commerce Commission yesterday condemned and criticized the accounts of the Chicago, Milwaukee and St. Paul Railway Company, and its subsidiary, the Chicago, Milwaukee and Puget Sound Railway Company. From an investigation by Examiner Carmalt, serious irregularities in the financial affairs of both roads were found. One of the practices condemned showed that the Chicago, Milwaukee and St. Paul overstated its income in 1910 by \$5,000,000, and in the following year by juggling figures its revenues showed an apparent falling off of \$2,000,000 which was explained on the ground of the inability to obtain increased rates and the increase in the cost of labor.

The commission says that statement is not true, and if a proper report had been made increase of \$2,000,000 would have been shown. Overvaluation in equipment and investments in the Puget Sound Company rated at \$25,333,385, the commission says, is \$100,000,000 in excess of the cash investments of the parent company. A number of other violations are mentioned, which the commission says were used in making false returns to stockholders.

DANDRUFF SURELY DESTROYS THE HAIR

Makes It Dull, Brittle, Lifeless, and Causes It to Fall Out.

Girls—if you want plenty of thick, beautiful, glossy, silky hair, do by all means get rid of dandruff, for it will starve your hair and ruin it if you don't. It doesn't do much good to try to brush or wash it out. The only sure way to get rid of dandruff is to dissolve it, then you destroy it entirely. To do this, get about four ounces of ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips. By morning, most if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it.

You will find, too, that all itching and dizziness of the scalp will stop, and your hair will be silky, fluffy, lustrous, soft, and look and feel a hundred times better. You can get liquid arvon at any drug store. It is inexpensive and four ounces is all you will need, no matter how much dandruff you have. This simple remedy never fails.
